

No.1 in Asia and No. 14 worldwide in overall ranking
No.1 in Asia in Salary Increase and Value for Money

Financial Times 2017

OUR MISSION

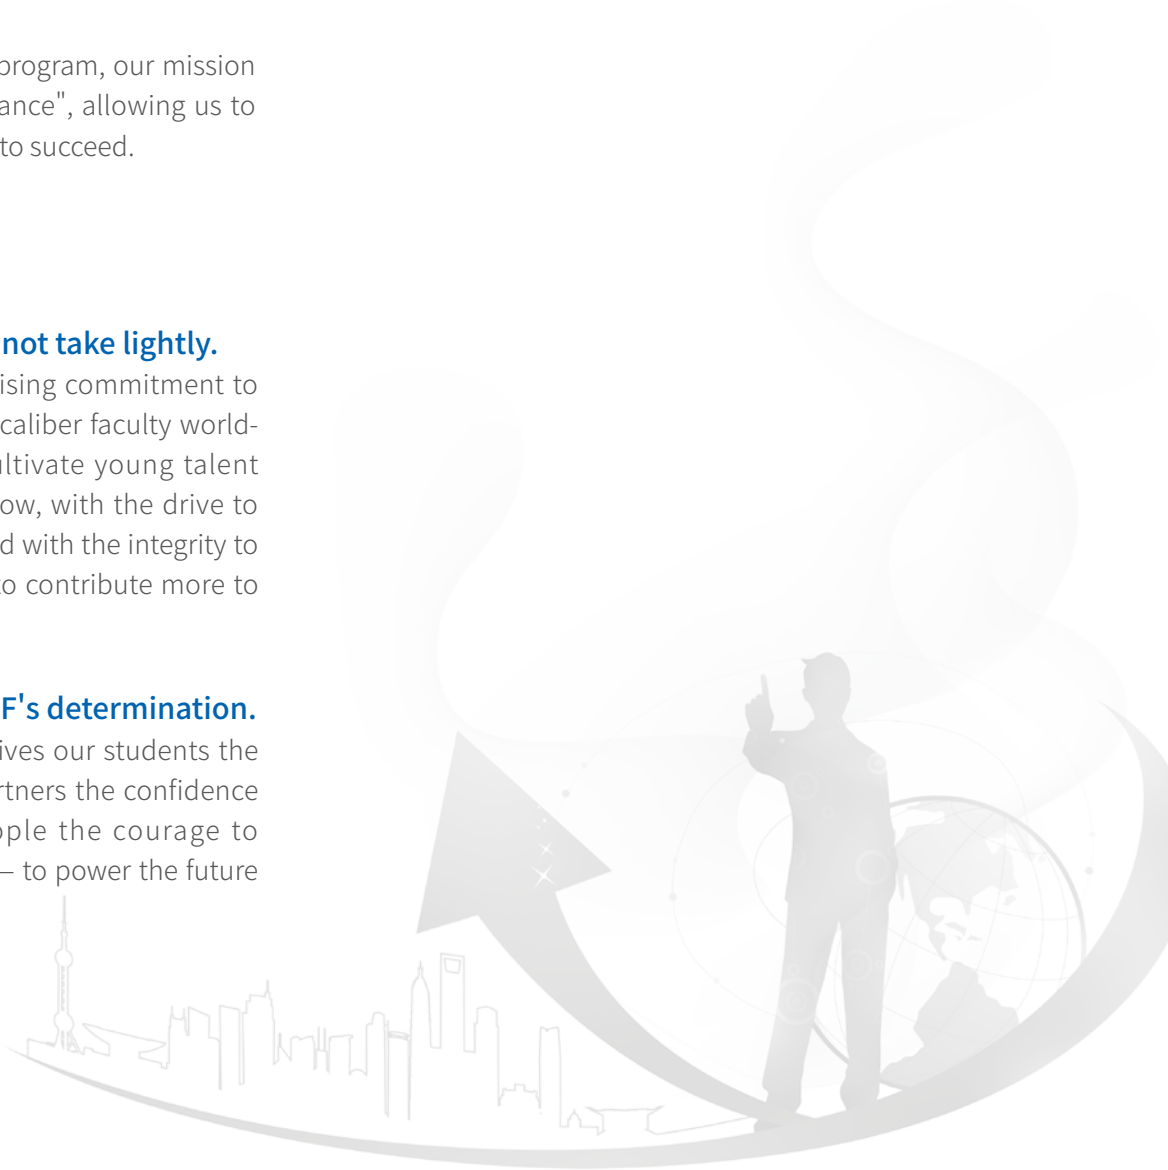

At the SAIF Master of Finance program, our mission is to "Power the Future of Finance", allowing us to prepare young financial talent to succeed.

It is a responsibility we do not take lightly.

We do it with an uncompromising commitment to attract and retain the highest-caliber faculty world-wide, with the passion to cultivate young talent and the joy to watch them grow, with the drive to build industry connections, and with the integrity to embrace our challenges and to contribute more to the financial field.

This is what we call SAIF MF's determination.

It is this determination that gives our students the strength to go further, our partners the confidence to aim higher, and our people the courage to achieve our vision with heart — to power the future of finance.

DEAN'S GREETING

Chun CHANG

Professor of Finance, SAIF

Executive Dean, SAIF

Ph.D. in Managerial Economics and Decision Sciences,
Kellogg Graduate School of Management, Northwestern
University

SAIF is committed to becoming a world-class institution in developing top talent and cutting-edge knowledge. Since its foundation and throughout the development of SAIF, it has been our goal to be the premier institute for financial education and research. For the past nine years, SAIF has attracted and retained a strong team of the highest-caliber professors from all over the world, and has already created both a rich learning environment and a powerful network. These attributes await your exploration.

I believe that China will not only be the driving engine of the world economy, but also the polestar for the development of the global financial industry for the next 20 years. This is a precious historical opportunity, and I hope that our students and prospective students all choose to ambitiously seize this opportunity. SAIF will be here for you and will grow along with you.

Chun Chang

MESSAGE FROM OUR DIRECTOR

Zhan JIANG

Associate Professor of Finance, SAIF
Faculty Director, Master of Finance Program
Ph.D. in Finance
Tippie College of Business, University of Iowa

It has been ten years since the first batch of SAIF MF students enrolled. These early graduates are now playing important roles in a variety of financial fields. Each year, more and more MF students graduate and move on to key roles throughout the finance field, being recognized in the market as some of the finest young professionals in the country. We are proud each and every one of our graduates.

In the most recent Financial Times' annual ranking of the best MF programs in the world, SAIF MF is ranked 1st in Asia and 14th in the world, jumping 14 slots from 2016 when it participated in the ranking for the first time. In terms of Salary Increase and Value for Money, SAIF MF program ranked 1st in Asia in both categories. We are proud of our achievements and still constantly seeking improvements to better equip our students for the challenges that lie ahead. That is our promise. In doing so, we are seeking to provide the finance industry with leaders of exceptional skill, passion, and integrity.

In joining the SAIF family, we understand that you share the same spirit: the spirit of both professional and moral leadership, going forward as you commit to engage in your own education. For you, we provide a cutting-edge curriculum — designed and delivered by a world-renowned faculty, staff, and support services that are second to none — and state of the art facilities and resources.

Thank you for believing in SAIF as much as SAIF believes in you. We look forward to sharing the road ahead.

MESSAGE FROM OUR CO-DIRECTOR

David X. Li

Professor of Finance, SAIF
Faculty Co-Director, Master of Finance Program
Ph.D. in Statistics
University of Waterloo

The financial industry is a fast-changing world, which has become increasingly so with the use of big data, machine learning, and new technologies such as blockchain and cloud computing. The challenge for the industry is to recruit talent with combined skills in the areas of finance, technology, and analytics.

Building on the success of our leading MF program, SAIF is launching a new track — MF FinTech Program. In addition to core courses in finance, MF-FinTech emphasizes rigorous training in statistics & machine learning, computer skills & applications. After successfully completing this intensive academic journey, you will have gained:

- Comprehensive training in modern finance concepts with solid understanding and intuition.
- Foundational knowledge of statistics, principles of machine learning, and its applications in finance.
- Ready-to-deploy expertise in computer programming, database management, blockchain technology, and cloud computing.

I am confident that after two years of study you will be well prepared for the challenges in the industry or for the further pursuit of academic studies.

What's SAIF MF

About SAIF & MF Program

Shanghai Advanced Institute of Finance (SAIF) was established within Shanghai Jiao Tong University (SJTU) in April 2009, with strategic and financial support from the Shanghai Municipal Government. SAIF is AACSB accredited and is recognized internationally as one of the top business schools in the world.

The Master of Finance (MF) program has been the flagship program at SAIF since its inception in the Autumn of 2009. SAIF's MF program was ranked No.1 in Asia and No.14 globally by the Financial Times in 2017. Currently, SAIF MF stands as one of the most prestigious finance programs in Asia.

The SAIF MF Program recruits world-class faculty from leading business schools around the world. The program (which is taught completely in English) has a cutting-edge curriculum, an educational structure with an international vision, and state-of-the-art facilities supported by a financial trading lab. The curriculum is designed to anticipate future trends, as well as to meet requirements for current practices within the financial industry—both in China and abroad. In addition to the technical skills provided by our major finance classes, our LIVE Learning Center and the "Extended Learning and Student Activities" (ELSA) seminars help students to enhance their practical skills and knowledge.

About MF-FinTech

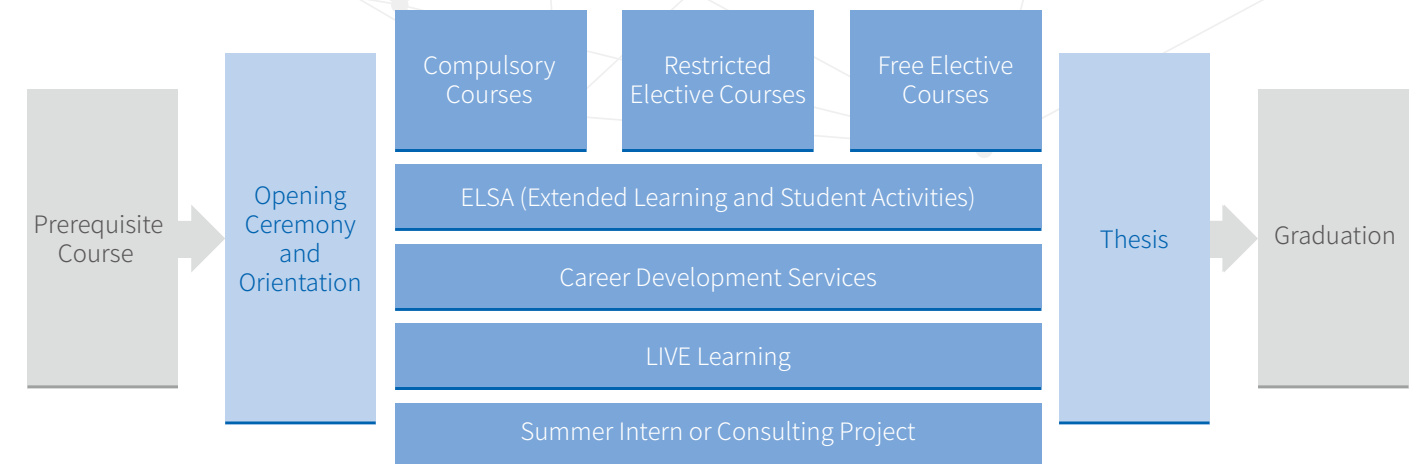

The financial world has been embracing FinTech over the last few years. In addition to mobile payments and money transfers that we now all enjoy in China, FinTech has been making a big impact in consumer credit analysis, asset management, insurance, transaction processing, etc. The use of blockchain technology, big data, and machine learning techniques are changing how economic activities are designed, how data is collected and analyzed, and how quickly this information is then utilized effectively. Building on the success of our current MF program, SAIF is launching a new track — the MF-FinTech Program. In addition to core courses in finance, MF-FinTech emphasizes rigorous training in statistics & machine learning, computer skills & applications.

We are recruiting students who can rise to the challenge of the cross-disciplinary training of this program, and who can lead the change in the financial world upon graduation. SAIF is here to develop future industry leaders with expertise in finance, big data, machine learning, and practical IT implementation.

How's SAIF MF Journey?

SAIF MF's student journey is designed in by our faculty and industry leaders. We draw upon our faculty's collective knowledge and experience to design a student journey that is academically rigorous and relevant. We bring industry professionals and leaders into our classrooms and into our students' education through live learning. Our students learn through direct interaction with high-level business leaders on live projects. This focus is forward-thinking both in spirit and implementation. By emphasizing learning-by-doing, we are aligned with the top business programs in the world.

Extended Learning and Student Activities(ELSA)

ELSA is committed to creating an exceptional living and learning environment for students and the greater SAIF community. We are dedicated to enhancing the growth of students to reach their full potential by providing rich learning opportunities through our programs, services, and facilities.

Professionalism Development Series

These seminars are specifically designed to help students polish their social skills and improve their professional image.

Social Responsibility Series

This series strengthens the bond between academia and society. The aim of the social responsibility series is to broaden students' view of the world and to encourage reflection on their own responsibilities in society.

Coffee Hour

SAIF MF highly encourages and facilitates student-faculty interaction. The MF program also organizes monthly coffee hours with different professors to create a more interactive and casual environment.

Volunteer Work

With the continued and growing support of volunteers everywhere, we will make 'a world of harmony'. Not just an aspiration, but a reality.

Student Activities

This series aims to find relaxing, practical and interesting activities which involve the students and help them to learn important life skills.

Learning through Integrated Vocational Experience (LIVE)

SAIF LIVE Learning Center offers the innovative experience of "live learning" to students by carefully-designed practicum courses and supporting experiences. LIVE completes each student's education by incorporating learning experiences from real-world, real-time projects and events.

There are three LIVE Learning courses currently offered by the LIVE Learning Center to SAIF students: LIVE FI; Consulting Company; MIT China Lab; and Innovation Finance Lab (subject to change). Each has its own uniqueness, while the concept and ultimate goal remain the same: to inspire students to learn and solve actual problems by taking action.

Career Development Services

SAIF Career Development Center is dedicated to providing students with professional career development mentoring, training students how to most effectively promote their professional skills and experience, helping graduates achieve their career goals, and facilitating connections between graduates and employers.

The services the Career Development Center provides for students include:

International Exposure

International Exchange

During your two years at SAIF MF, you will also have the opportunity to study abroad for a semester at one of our global partner schools.

International Module

International Module (IM) is an opportunity for students to observe finance in action, in an international context, by moving the classroom to some of the most dynamic economies in the world. Each excursion embraces a particular theme, combining global financial practice with classroom concepts. The themes vary from capital markets to finance and innovation. Students get to explore this theme through lectures and workshops at prestigious overseas schools, visits at leading companies, meet-ups with global business leaders, and interaction with local students.

Dual Admission Programs

Columbia University – MS in Financial Engineering/Operation Research

The London School of Economics and Political Science(LSE)- MSc in Risk and Finance

Other Dual Admission programs are under discussion.

Each year, around 15% of the MF class consists of international students coming from a diverse range of countries including Canada, France, Germany, Iceland, Sweden, Switzerland, Russia, Thailand, Korea, UK, US, etc.

Shanghai Speed

Pursuing a master's degree in Shanghai will be a step in shaping your global career. Already one of the most rapidly growing "global cities" and home to operations of many of the world's multinational companies and leading financial institutions, it is Shanghai's goal to become the undisputed commercial, logistical, and financial hub for Asia. Shanghai is the ideal place to experience first-hand the power of cutting-edge ideas being put into practice. Closely observe the challenges and opportunities that come with rapid growth and globalization.

The almost endless choice of cultural and entertainment activities, combined with Shanghai's unique sights and sounds, will stimulate your senses and cultural curiosity. The city's local and ethnic restaurants, chic bars, museums, theatres, and shopping areas provide students the added flavor to make the whole experience truly an unforgettable one.

Free Mandarin Courses

The free Mandarin courses at SAIF provide international students an opportunity to learn Chinese pronunciation, characters, grammar, and culture. It is not required for graduation, but learning Mandarin will enhance your SAIF, Shanghai, and China experiences. Enjoy this language learning opportunity and benefit from the results!

Industry Connections and Activities

SAIF's diverse portfolio of industry connections and partnerships serves as a unique resource that benefits the students in career guidance, learning, and development of soft skills.

Who Has Been to SAIF?

Franklin Allen

Previous President of the American Finance Association
Professor of Finance and Economics, Imperial College London

Sir Howard Davies

Chairman of the International Advisory Council of the China Securities Regulatory Commission

Robert Engle

Nobel Memorial Prize in Economic Sciences laureate
Professor of Finance, New York University

Sterling Professor of Economics, Professor of Finance, Yale University

Paul Volcker

Chairman of the Federal Reserve from 1979 to 1987

Jinglian Wu

China's most influential economist.

Xiaoling Wu

former Deputy Governor of the People's Bank of China
former Administrator of the State Administration of Foreign Exchange

Min Zhu

Chairman of The National Institute of Financial Research
former Deputy Managing Director of the International Monetary Fund

PAE Program

PAE stands for Program Advisor Expert, and it consists of senior executives from both top international and China-based companies with a concentration on financial sectors. The program aims to enhance students with self-awareness and self-development in work and life. With more than 15 years of professional experience, PAEs provide insights into professional development paths and the industry. More importantly, they instill positive values in the students and inspire the students to become well-rounded future leaders.

The PAE program helps students build life-long connections and expand their networks in the industry.

"The financial industry is facing with inspiring artificial intelligence challenge and data processing is more important than ever before. Look forward to SAIF's student riding on this huge tide and play an important role in financial industry reform."

CFA Program Partner

The CFA Institute is the global, not-for-profit association of investment professionals that awards the CFA and CIPM designations. It promotes the highest ethical standards and offers a range of educational opportunities online and around the world.

As a CFA Program Partner, the SAIF MF program and CFA China have a mutually rewarding relationship which includes the following benefits for our students:

- Complimentary access to Financial News Brief, a daily investment newsletter, for students in the approved degree program ('Degree Program').
- Complimentary access to an online Level I sample exam for Degree Program students.

International Youth Leadership Finance Summit (IYLFS)

IYLFS is conducted by SAIF MF program at Shanghai Jiao Tong University. The summit aims to provide an interaction and learning platform for outstanding undergraduate students, as well as to cultivate their leadership, communication, and organizational skills. Six summits have been held successfully, during which 729 selected undergraduate students from 40 top universities worldwide participated.

Competition participants are from below universities

Who's at SAIF MF

Globally-Renowned Faculty

Our world-class faculty, who come from both academic and professional backgrounds, actively participate in the crafting of SAIF MF's vision, strategy, and curriculum.

As of February 2018:

- We have 24 full-time professors and 38 special term professors.
- 100% of our faculty members hold a Ph.D. degree from top global universities.
- 74.2% of our professors are (or were) tenured faculty at top global institutions.

From establishment in 2009 to 2017:

- 159 papers were published in A+ rated international journals, including The Journal of Finance, The Journal of Financial Economics, The Review of Financial Studies, The American Economic Review, Econometrica, etc.
- 447 academic papers have been published domestically.

Our faculty members obtained their Ph.D. degrees from the following universities.

Student Profile

The following figures demonstrate the comprehensive profile of 2009-2017 MF students

Total number of admitted students:

465
(MF2009-2017)

Average ratio of male to female:

55% to 45%

International students from **30** different universities in

13 countries.

2017 MF Students Profile: Undergraduate major distribution

Finance and Economics: **44%**

Science and Engineering: **30%**

Liberal arts and others: **26%**

Domestic students from 18 universities, among whom 61% are from Peking University, Tsinghua University, Fudan University, or Shanghai Jiao Tong University.

International students from 7 countries and regions, including U.S., Canada, France, Malaysia, Botswana, Turkey, and Taiwan.

Voice from SAIF MF Students and Alumni

Andrew Schobelock

AIF MF2017 Student

Nationality: United States

Undergraduate: Texas Tech University, Industrial Engineering

Following my undergraduate degree, I knew that I wanted to make a switch from engineering to finance and that I wanted to have an internationally-focused career. With Shanghai being a growing global financial center, and having visited China once before, SAIF was my ideal school.

Now that I am two semesters into the MF program, I can say that it has been very academically rigorous, which has helped create strong bonds within our class. Over the past Chinese New Year festival, I was invited by a classmate of mine to stay with him and his family. The relationships that I have built and the experiences that I have had outside of the classroom have added tremendously to the value of the MF program.

In this program, I am surrounded by some of the most intelligent people that I have ever met from all over China and around the world. As someone who grew up in Dallas, Texas and is now studying in China, this cultural aspect has been something that I believe sets this program apart.

Emily Cheng

SAIF MF2016 student

Nationality: Canada

Undergraduate: McGill University, Finance

International! This word that I would use to describe my first impression of Shanghai Advanced Institute of Finance (SAIF).

SAIF MF allows me to enhance my knowledge in financial theories and strengthens my ability to use mathematical and computational methods in solving finance problems. The program curriculum coincides with my background in finance and math as well as my work experience in investment management and quantitative analysis. I desire to further enhance my financial and quantitative skills through courses and the financial database exploration series of Extended Learning and Student Activities (ELSA). In addition, by engaging in real business cases through SAIF LIVE and participating in internships during my time at SAIF, I look forward to further enriching my practical experience.

SAIF MF accelerate my professional development and facilitates the realization of my ambitions. I cannot wait to fulfill my passion in finance and develop a network with future business leaders. In return, I believe that I can share my experience with the fellow Master of Finance students, possibly helping them attain their goals as SAIF makes it possible for me to attain mine.

Kai Yin

SAIF MF2015 Alumni

Nationality: China

Investing Banking, Huatai United Securities

I offer financial advisory service to emerging startups, in particular those in Technology, Media and Telecom (TMT) sector. Thanks to the days at SAIF, I managed to take the career path I prefer. SAIF delivered the knowledge transferred by faculty from different sectors, the experience shared by industry mentors, the advice from the staff at Career Development Center (CDC) and the brainstorm with classmates. Their unique insights were extremely helpful in my choice of career path.

Matthias Keschka

SAIF MF2014 Alumni

Nationality: Germany

Assistant to the Chairman, China Momentum Fund
Fosun Group

I found the Master of Finance program at SAIF the most suitable for me to enhance my academic education and be ready for working in the financial industry with a focus on China & Asia. It is a challenging, truly international program with first class professors. With a full scholarship I have been quite lucky starting from the enrollment in SAIF and together with our extremely smart classmates I won various competitions, had a short exchange at MIT and received a job offer at Fosun without even applying. Together with four of my classmates we won the Asia Pacific Regional Championships of the 2015 Hult Prize getting the chance to work in India and met Bill Clinton in New York. Two years later I won the 6th Asian Business School Desert Challenge with the support of the strong team of our school. Among others, SAIF taught me how to prioritize and to make difficult compromises in a very tight (working) environment.

For international students who would like to develop their career in China, I recommend to keep on learning Chinese and to stay flexible throughout the program and beyond.

25

How to Apply

The SAIF Master of Finance (MF) Program admission process can be summarized as follows:

Mainland China Applicants:

Mainland China Applicants are admitted through one of two channels:

Exam-exempt Application: Qualified Chinese students may apply through this channel before committing to the National Exam. The process begins in April of the student's junior year with a series of information sessions held all over China. Students must register the required materials with our online application system before the deadline. The program admissions committee selects students for the SAIF MF Summer Camp or Mini Camp. Participation in and successful completion of the Mini Camp or Summer Camp are two ways to be admitted through the exam-exempt channel.

National Exam: Chinese citizens either in their final year of university or who have already been awarded a bachelor's degree from a four-year, recognized degree program, who then meet the minimum national criteria for graduate school (subsumed by our own requirements) are welcome to apply. The exam takes place in January each year, and SJTU sets a minimum score for eligibility after receiving the test results. SAIF may then choose from the eligible applicants and subject them to further screening criteria.

Please check our official website for more details: http://mf.saif.sjtu.edu.cn/page-mf_dlxs.html

Hong Kong, Macao, and Taiwan Applicants

Candidates from Hong Kong, Macao, and Taiwan will need to pass the National Exam in order to study at SAIF. However, conditional accept offers to students are also available and we invite those prospective students to come and experience SAIF culture during our annual Summer camp. If you are interested in coming to see us in person, please contact us as soon as possible.

Please check our official website for more details: http://mf.saif.sjtu.edu.cn/page-mf_gatxs.html

International Applicants

SAIF MF is happy to announce the establishment of Global Impact Scholarships (GIS) for international candidates from top universities world - wide, applying for the 2 year full - time MF program for matriculation in the Fall of each year. GIS candidates cannot be a citizen of China (including Taiwan, Hong Kong, and Macao) at the time of application. The scholarship will cover full or partial international tuition for the students who meet the scholarship criteria.

Outstanding candidates have the chance to be recommended by the MF program to apply for the Chinese Government Scholarship, which includes tuition waiver, free on - campus accommodation and a monthly allowance (RMB 1,700 or USD 280 per month).

Please check our official website for more details: <http://en.saif.sjtu.edu.cn/mf/page/135.html>

Campus Surroundings

SAIF has two sites in the heart of Shanghai. One is located in the Xuhui District, within the charming former French Concession. The second is located within the Lujiazui area, in the center of the Pudong District.
